Executive Summary

Introduction

On June 12, 2019, Georgia Governor Brian P. Kemp issued an executive order appointing the Georgia Children's Cabinet. The Georgia Children's Cabinet (the Cabinet) was charged with supporting a "sustainable and comprehensive system of education and care to best serve children and families in each region of our state." The Georgia Department of Early Care and Learning (DECAL) was named the lead fiscal agency for the Cabinet, and as such, the Cabinet was transferred to the agency. First Lady Marty Kemp serves as Honorary Chair of the Cabinet, and DECAL Commissioner Amy M. Jacobs and the Governor's Office of Student Achievement Executive Director Joy Hawkins serve as co-chairs.

The executive order also appointed executive and full Cabinet members, as shown in Tables 1 and 2 below. Appendix A contains the full executive order.

Strategic Vision and Priority Goal Areas

The University of Georgia's Carl Vinson Institute of Government facilitated a strategic planning meeting on September 6, 2019, with the full Cabinet. During the meeting, Cabinet members articulated their strategic vision for the purpose, approach, and priority goal areas for the Cabinet (see Appendix B). The strategic vision was drafted that day and formally approved at the January 7, 2020, full Cabinet meeting. The purpose of the Cabinet is to "support a sustainable and comprehensive system of education and care to best serve the children and families in each region of our state." The Cabinet agreed that the members should take a comprehensive, systematic, and whole-family approach to ensure children are and feel safe, are healthy, are learning, and are prepared for adulthood.

The Cabinet identified four priority goal areas:

1. Safety: Children (ages 0-18) are safe and feel safe
2. Healthy: Children (ages 0-18) have a healthy start
3. Literacy: Children (ages 0-18) are literate in reading and math
4. Two-Generation Approach: Whole-family and system approach to policy and service delivery

The Cabinet developed the following strategies and actions to help meet each of these priority goal areas:

1. Safety:
 - A. Define safety and how to measure it;
 - B. Inventory current child safety-related assessments, intake instruments, programs and services; and
 - C. Focus on trauma-responsive practices.
2. Healthy:
 - A. Develop and deploy a messaging campaign to increase vaccine use and reduce vaccine-preventable diseases;
 - B. Meet key developmental milestones through early intervention in maternal and infant health; and
 - C. Empower children to take responsibility for their own physical, social, and emotional health.
3. Literacy:
 - A. Support new teachers with strategies to address reading and math; and
 - B. Educate and support parents through community partners.
4. Two-Generation Approach:
 - A. Adopt two-generation principles across all agencies;
 - B. Identify barriers to program eligibility, access, and participation; and
 - C. Ensure front-line staff are better informed about state programs and services.

Meeting History

The Georgia Children's Cabinet held its first full Cabinet meeting on June 18, 2019, and concluded its first year of service with an executive Cabinet meeting on March 3, 2020. Five meetings were held during the first year: two executive Cabinet meetings and three meetings with the full Cabinet. Members of the executive Cabinet also attended the full Cabinet meetings. Most of the meetings were held at the Governor's Mansion in Atlanta. Facilitators from the Institute of Government facilitated all meetings. First Lady Marty Kemp serves as the honorary chair of the Children's Cabinet. The Cabinet co-chairs are Commissioner Amy M. Jacobs and Executive Director Joy Hawkins.

Meetings were held on the following dates:

- Full Cabinet, June 18, 2019, 8:00 am-10:00 am, Governor's Mansion, 391 West Paces Ferry Road, Atlanta, Georgia

- Full Cabinet, September 6, 2019, 10:00 am-2:00 pm, Goodwill Conference Center, 5171 Eisenhower Parkway, Macon, Georgia
- Executive Cabinet, November 5, 2019, 8:00 am-10:00 am, Governor's Mansion, 391 West Paces Ferry Road, Atlanta, Georgia
- Full Cabinet, January 7, 2020, 8:00 am-10:00 am, Governor's Mansion, 391 West Paces Ferry Road, Atlanta, Georgia
- Executive Cabinet, March 3, 2020, 8:00 am-10:00 am, Governor's Mansion, 391 West Paces Ferry Road, Atlanta, Georgia

The initial full Georgia Children's Cabinet meeting in June 2019 established the schedule for the full and executive Cabinet meetings throughout the year.

On September 6, 2019, the full Cabinet convened for a strategic planning meeting. Institute of Government facilitators led the members through a strategic planning session. During this meeting, members established the purpose, mission, and strategic priority areas for the Georgia Children's Cabinet and identified possible strategies and activities to help accomplish the priority areas.

The executive Cabinet met on November 5, 2019. The executive Cabinet amended the strategic vision document based on member feedback. Actions items included the following:

- discussing subcommittees,
- scheduling a presentation about the United Way's 211 system,
- coordinating speakers around the priority goal areas, and
- finalizing the strategic vision document.

The full Cabinet met again on January 7, 2020. The Cabinet reviewed the strategic vision document and, with minor changes to the purpose statement, formally approved it. Representative Katie Dempsey updated the Cabinet on the work of the House Study Committee on Infant and Toddler Social and Emotional Health. Representative Kevin Tanner provided updates on the Behavioral Health Commission. United Way Vice President and 211 Director Donna Burnham also presented an update on the United Way 211 system. Action items discussed during the January meeting included the following:

- updating the 211 resource lists for agencies,
- developing an inventory of conferences and trainings to encourage cross-agency presentations and attendance, and
- developing an inventory of interagency groups that provide services for children and families related to the Cabinet priority goal areas.

The executive Cabinet met again on March 3, 2020. Commissioner Jacobs provided an update on Georgia's Preschool Development Grant Birth through Five and the development of the Cross-Agency Child Council supported by the grant. Cabinet members proposed a two-generation event that would bring experts to the state to work with agency leaders and front-line staff to build awareness about the two-generation approach. The interagency inventory and conference inventory instruments were presented to the Cabinet for approval. Finally, the Institute of Government led a brainstorming activity on key indicators for each priority area for the Cabinet to monitor. Action items addressed during the March meeting included the following:

- distributing the interagency and conference inventory instruments to Cabinet members,
- developing a Georgia Children's Cabinet website for Cabinet members to share research and Cabinet documents, and
- further discussing key indicators at the next Cabinet meeting.

The full Cabinet was scheduled to meet on May 7, 2020. This meeting was canceled due to the COVID-19 pandemic and subsequent scheduling conflicts.

Cabinet Research and Achievements

Over the past year, the Cabinet accomplished the following:

- successfully developed a strategic vision and priority goal areas on which the state will focus over the next four years,
- began building a new website that will be hosted by DECAL, and
- sponsored two research projects conducted by the Institute of Government:
 - to identify existing collaborative and interagency teams, and
 - to identify conferences and trainings held by partner agencies throughout the state.

STRATEGIC PLANNING

One of the Cabinet's goals for the first year was to conduct a strategic planning meeting with the full Cabinet. This meeting was held on September 6, 2019. The goal of the meeting was to develop the Cabinet's purpose, mission, and goals to guide the work over the upcoming four years. During the meeting members drafted a strategic vision document that was revised and discussed at the November 5, 2019, executive Cabinet meeting and then presented at the January 7, 2020, full Cabinet meeting, where it was formally approved.

WEBSITE DEVELOPMENT

DECAL is working on a website that will be a central repository for Cabinet documents and shared work products. The website will provide a specific place for Cabinet members to share and access research and other helpful information related to Cabinet priorities.

RESEARCH

The Cabinet approved two research projects conducted by the Institute of Government:

- an inventory of current collaborative and interagency teams, and
- an inventory of conferences and trainings held by partner agencies in the state.

Inventory of Interagency Teams and Collaboratives

The Institute of Government is conducting an inventory of existing interagency teams currently working on behalf of Georgia's children and families. The goal of this research is to minimize duplication of efforts and to provide Cabinet members with the broad landscape of existing work being done by agencies. The inventory survey was presented to the executive Cabinet on March 3, 2020, and was approved to be sent via email to the full Cabinet. The 13-question survey launched to the full Cabinet on March 6, 2020. Email reminders were sent on March 30, 2020, April 20, 2020, and May 5, 2020. Overall, **12** respondents have completed the inventory and **27** interagency teams and collaboratives have been identified. All 27 interagency teams and collaboratives address at least one of the Cabinet's identified priority areas (e.g., healthy children, safety, literacy, or two-generation). Due to the COVID-19 pandemic, the inventory remains in the field for the remaining respondents to complete as time allows; it is anticipated that this research will be ongoing. Appendix C contains a copy of the survey.

Cross-Agency Training Opportunities

The second research activity is an inventory of upcoming conferences and training opportunities available for interagency attendance and presentations. The inventory was developed to inform the Cabinet of existing opportunities for interagency collaboration and shared learning. The 10-question inventory was presented to the executive Cabinet on March 3, 2020, and was approved to be sent to the full Cabinet. The survey launched on March 6, 2020 to the full Cabinet. Email reminders were sent on March 30, 2020, April 20, 2020, and May 5, 2020. Overall, **6** respondents have completed the inventory, and the following **3** conferences/trainings were identified:

- The Summit: Georgia's Child Welfare Conference,
- Georgia's Afterschool and Youth Development Conference, and
- Georgia System of Care Academy.

Due to the COVID-19 pandemic, the inventory remains in the field for the remaining respondents to complete as time allows; it is anticipated that the pandemic will affect conference and training availability throughout the upcoming year. Appendix C contains a copy of the inventory instrument.

Year 2 Plans

INDICATORS

The Cabinet has proposed developing key indicators to guide the strategic vision and priority goal areas. An initial facilitated brainstorming session with the executive Cabinet was held on March 3, 2020. These indicators will provide a lens through which the Cabinet will monitor progress being made in the priority goal areas of safety, healthy, literacy, and two-generation work. During the March 3 brainstorming session, the executive Cabinet developed a list of indicators for each priority goal area. It is expected that this work will continue over the next year.

TWO-GENERATION FORUM/CONFERENCE

The Cabinet has proposed holding a two-phase event in the next year (2020-2021) focused on building awareness of two-generation work in Georgia. During the first phase of the event, experts from Ascend at the Aspen Institute would hold a one-day summit with Cabinet members to provide examples and best practices from other states currently doing two-generation work. The goal would be to build awareness of the two-generation approach, strategies, and organization. The second phase of the event would bring front-line staff to a summit to build awareness of best practices and uses of two-generation work in the field.

CHILDREN CABINET INTERAGENCY COLLABORATION SURVEY

On behalf of the Georgia Children's Cabinet, the Carl Vinson Institute of Government at the University of Georgia is conducting a survey to document the various interagency teams and/or collaboratives that currently meet to coordinate state or local services for children and families.

This survey will ask you about the interagency teams and/or collaboratives in which your agency participates. For each interagency team and/or collaborative, please be prepared to provide the group name, coordinating agency, point of contact, group purpose, origination date, and agencies participating in the group. Before proceeding, please take a moment to collect this information.

Please provide your contact information and which agency you represent:

- First Name _____
- Last Name _____
- Email _____
- Phone Number _____
- Agency _____

We would like to learn about the existing interagency groups and collaboratives that coordinate state or local services for children and families.

How many such interagency groups does your organization participate in? Please count only those interagency collaboratives where you know the primary point of contact and group purpose. (If none, please enter 0.)

What is the name of the {first/second/third...} interagency group or collaborative?

Which agency coordinates this group?
